INTRODUCTION OF A NEW TOOL TO HELP FACULTY AND STUDENTS IMPROVE THE SPEED, QUALITY, AND ACCURACY OF THEIR THESES, DISSERTATIONS, GRANTS, AND OTHER RESEARCH PROJECTS.

We are pleased to provide all our students and faculty with free access to the Chisquares platform for the next 12 months. This special session will demonstrate how you can use the AI-enabled Chisquares platform to conduct your research faster, more effectively, and with advanced techniques that increase the likelihood of publication in scientific journals.

Learning Objectives

The session will be hands-on and demonstrate how to:

- ✓ Calculate sample sizes for different types of studies
- ✓ Draw representative samples for any country in the world in just seconds
- ✓ Conduct web-randomized experiments (e.g., factorial designs) and discrete choice experiments
- ✓ Design both cross-sectional and longitudinal surveys
- ✓ Collect data offline on your device in areas without internet access
- ✓ Access automatically cleaned data from your survey
- ✓ Generate analysis and methodological reports for your survey with just a single click
