- appeals regarding the interview results: 02.06.2026
- publication of the final results: 03.06.2026.

1. Application file contents:

- a)** Application form for the recruiting and selection (standard application annexed to the recruitment and selection notice – the name of the vacant position must be filled in);
- b)** CV, dated and signed on each page, in Europass format, indicating the project and position for which the candidate is applying;
- c)** Certified copies of the original ID or, as required by law, any other identity-proving document (certification will be made by the secretary of the committee against the original documents);
- d)** Certified copies of educational documents (certification will be made by the secretary of the committee against the original documents);
- e)** Diplomas/certificates attesting to the completion of specializations (originals are required for certification);
- f)** Supporting documents attesting to the length of employment and/or experience in the field of study, as well as documents certifying the specific professional experience required for the position (e.g. employment certificates indicating length of service and experience in the field of study, employment contracts, job descriptions, letters of recommendation, etc.);
- g)** Criminal record certificate or a statutory declaration stating that the candidate has no criminal record making them incompatible with the position applied for; the criminal record certificate must be submitted by the successful candidate within 10 working days from the publication of the final result of the recruitment and selection process;
- h)** Medical certificate attesting to the candidate's appropriate health condition, issued no more than six months prior to the recruitment and selection procedure, by the candidate's general practitioner or by an authorised medical institution.
- i)** Declaration of availability specifying the time to be allocated to the project, per day and per month.

j) Consent form regarding the processing, handling, and storage of personal data.

2. General conditions required for occupying the position of Researcher – PhD Student

- Holds Romanian citizenship or the citizenship of another EU Member State or of a state belonging to the European Economic Area, or has the legal right to work in Romania;
- Has proficiency in the Romanian language, both written and spoken;
- Has a state of health appropriate for the position applied for;
- Meets the educational requirements and, where applicable, the experience or other specific requirements of the position;
- Has not been convicted of committing any criminal offense.

3. Specific conditions required for occupying the position

- Graduate of higher education in the (bio)medical fields (medicine, pharmacy, biochemistry);
- Experienced in work with biological samples for ‘omics’;
- At least 6 months previous experience in sample preparation for mass spectrometry analyses;

4. Calendarul de desfășurare a concursului

Location of the competition: “Iuliu Hațieganu” University of Medicine and Pharmacy Cluj-Napoca, Institute for Biomedical Research MedFuture, 4 Louis Pasteur Street, MedFuture Building, 1st floor.

- Application files may be submitted between 24.04.2026 – 25.05.2026, until 3:00 p.m., at DEPCDI, 4 Louis Pasteur Street, 3rd floor, Room 4. Contact person: Ioana Cîmpean.
- The evaluation of application files will take place on 26.05.2026, at 10:00 a.m., and the results, marked as admitted/rejected, will be recorded in an official report.
- The interview will take place on 29.05.2026, at 10:00 a.m. The maximum score for the interview is 100 points, and the minimum passing score is 50 points.
- The results of each stage will be communicated to the registered candidates by e-mail by the end of the day on which the respective stage took place.
- Appeals may be submitted within one working day from the date the results of each stage are communicated.
- The final results will be announced on the next working day, i.e. 03.06.2026.

Topics:

1. Sample preparation of biological specimens for metabolomics
2. Liquid-liquid and solid phase extractions of metabolites in liquid biopsies
3. Targeted and untargeted metabolomics for discovery and validation of biomarkers
